

1. Climate map
2. The key shows average temperatures in degrees Fahrenheit.
3. The maps key coded each place with different patterns so we can tell what the temperature is. The key says that 56-60 degrees is little dots so, I look for the dots.
4. Temperature range is under 56 over 72.
5. 270 miles
6. The southwest is about the coldest area on the map.
